## MUNICIPAL AND LOCAL FUNDS.

### BANGALORE CITY MUNICIPALITY.

*Notice No.* 2558, *dated* 14*th May* 1910.

Notice is hereby given that sealed tenders will be received up to 15th June 1910, by the Municipal Engineer, Bangalore City Municipality, for supplying laterite, quarry metal and gravel during the year 1910-11.

2. Each tenderer must definitely state the rate at which the material would be collected, carted and stacked in standard heaps, on road side in each division. The tender may be for one or more divisions.

3. Each tender must be accompanied by a deposit of Rs. 100 (in cash or currency notes) as earnest money and be superscribed "Tender for supplying materials for roads."

4. The final acceptance of any tender rests with the President, City Municipality, who does not bind himself to accept the lowest or any tender.

5. The name of the successful tenderer whose tender has been accepted will be posted on the notice board in the Municipal Engineer's office in due course.

6. No enquiries regarding the acceptance or rejection of a tender will receive any attention.

7. The successful tenderer will be required to execute a bond within a week after the acceptance of his tender. In default, the tenderer will forfeit his earnest money and his contract will be considered null and void.

8. The earnest money of rejected tenderers will be returned to them on the above or any subsequent date by the President, City Municipality.

N. SUBBA RAO,
for *President, Municipal Council.*

## SANITARY.

### CENTRAL SANITARY BOARD.

I. Read letter No. 5401—Ml. 459-05-18, dated the 21st December 1909, from the Secretary to Government, General and Revenue Departments, requesting that the revised plans and estimates amounting to Rs. 2,764 for the construction of a sheep slaughter house and a sheep pen at Bowringpet may be placed before the Central Sanitary Board for opinion.

*Resolution* No. 4, dated 8th April 1910—

Resolved that the revised plans and estimates amounting to Rs. 2,806 (as modified in the Chief Engineer's Office) be approved.

II. Read letter No. C. 238, dated the 29th October 1909, from the Chief Engineer in Mysore, forwarding for the approval of the Central Sanitary Board, plan and estimate amounting to Rs. 15,408 for filling the western side of the northern arm of Doddakere tank together with a copy of the resolution of the City Improvement Trust Board, dated the 29th September 1909.

*Resolution* No. 5, dated 20th April 1910—

Resolved that the filling of the portion of Doddakere indicated being a pressing necessity, the project be approved. The land would be more valuable if the feeder channel which now divides it in the middle were directed towards one end as indicated on plan by the line A B C marked in red pencil but its diversion would mean a loop that might be troublesome later on, though, of course, there are similar bends already on the same channel above the Pleasure Palace road. The project may therefore be sanctioned with or without the diversion as Government think fit.

2. The earth for filling should be obtained from the deeper parts of the existing tank as excavation at the tank margins would result in pools that will breed mosquitoes by the million.

P. PALPU,
For *President.*
